Wedding Reception Much Enjoyed

A very enjoyable wedding reception was given at the home of Mr. and Mrs. E. A. Brubacher in honor of their son and his wife, Mr. and Mrs. H. Brubacher. About thirty guests were present. Many lovely gifts were received, which bore record to the popularity of the groom who is one of Didsbury's native sons.

Herb spent many years in the employ of A. G. Studer, leaving to take a position with Swift and Co. Edmonton. He is now entering into business for himself in Sexsmith, Peace River district, and his many friends wish him good luck in both his matrimonial and business ventures.

Among the guests present were Mr. and Mrs. J. V. Berscht, Mr. and Mrs. Cecil Studer, Mr. and Mrs. A. G. Studer, Mr. and Mrs. A. R. Kendrick, Mr. and Mrs. Ward Keith, Mr. and Mrs. Harold Breunig, Mr. and Mrs. Elmo Cressman, Mr. and Mrs. Frank Mertens, Miss Lucille Smith, Mr. Ross Ford, Miss Rosie Rupp, Miss Jereen Shantz, Mr. and Mrs. Harold Clemens, Miss Bessie Clemens, Mr. Ralph Burgeon, Mr. Dewey Rood, Mr. Mose Dipple, Mr. Ezra Dipple, Miss Anna Mueller, Mr. H. Ness, Mrs. Jerry Shantz, Rev. Roppel, Mrs. Ness.

BRUBACHER—SALTER

The wedding took place at Brownvale on Tuesday, January 17th, of Miss Lucille Salter, daughter of Mr. and Mrs. Henry Salter, of Whiteclaw, to Mr. Herbert J. Brubacher, of Sexsmith.

The ceremony was performed by Rev. O. W. Whitford, of Bezwyn, at the home of the bride's parents, in the presence of only a few relatives and friends. The bride was given away by her father, and little Vera Whitney, niece of the bride, daintily dressed in blue and white, was flower girl. Both bride and groom were unattended.

Miss Salter came to the Peace River country less than two years ago and made many friends in Brownvale as well as in Peace River, where she resided for some months.

Mr. Brubacher for some years has represented the Swift Canadian Company in the north, with headquarters at Grande Prairie, and is well and favorably known in all parts of the district.

The happy couple left on Tuesday's train for Calgary and other points in the southern part of the province to spend their honeymoon. Upon their return they will take up their residence in Sexsmith where Mr. Brubacher will enter into business for himself—Peace River Record.

Sentence Sermons

WHOEVER THINKS—

- He can fool God has fooled himself already.
- He is clever proves that he is not very.
- He is abused injures himself most.
- He deserves pity soon begins pitying himself.
- He can fool all the world has a short career ahead of him.
- He can learn something from every man is a wise man already.
- He is religious just because he belongs to church fools no one else.

He may have a greasy hat and the seat of his pants may be shiny, but if his children have their noses flattened against the window-pane half an hour before he is due for supper, you can trust him with anything you have.

CHAPTER XVII.—Continued

Helmi's eyes were two deep pools of wonder and delight. Then, over them swept fear, like a raw east wind. "But Jack, have you to go? Will you have to leave me and go away to the north? I don't want gold, dear Jack, I just want you—big lot 'money makes only trouble."

Jack kissed her and laughed. "O Helmi, you will not mind my going. This man I am going with knows the North. He has lived in it for fourteen years, and he has the maps and all, and it's a great thing for me that he is taking me with him: There's hundreds of fellows who would wish they were in my place if they knew. But it is just the two of us and a half-breed guide. We have to keep it dark, because the oil syndicate are watching him. They know that he knows where the oil springs are. Helmi, he told me of a hot spring valley there where the rocks are always warm, and tropical plants grow, and the creeks come rolling out of the mountains. He is a wonder, this man, and to think he asked me to go with him, and he will let me stake my claim with his and give me a share in everything."

Helmi looked at him with deep trouble in her eyes. "I wish you had never seen gold in the sand, and never met this man," she said. "Now all our good times will be spoiled by thinking you have to go. Jack, I hate money, plumes on hat, and big rings and trip to Finland—now I just want you—and my nice little house to work in—and make nice. Don't go, Jack—just stay with me."

"Poor little kid," Jack said. "I know how you feel. That was the reason I did not say anything about getting married when I came at Christmas. I thought we would wait until I came back from the north, but it's better that we did get married, dear. I am glad we did, even if you are pretty cross at me, leaving you so soon."

"Not cross, Jack, but just sad. My heart is cold and heavy, just like a stone."

"Now cheer up, Helmi, and listen. I want to tell you what sort of a dress we will buy first when we get

EXPECTANT MOTHERS

Read Mrs. Menard's Letter. Her Experience May Help

Chatham, Ontario.—"I want to tell you how much good your medicine has done me. Before my baby came I felt so weak and rundown that I could hardly do my work. My head ached continually and I was so discouraged that I could cry from morning till night. I had another baby just one year and a half old and it gave me a lot to do. So I thought I would try Lydia E. Pinkham's Vegetable Compound, as I had read so much about it in the little books. I found a difference right away as my head was relieved and my tired feelings gone. My sister had been doing my washing and she continued doing it, as she said it might set me back if I started to do it again. It sure did help me and I had taken just two bottles when my baby came. He is a fine big boy, now nearly five months old. I am taking your medicine again and I am able to do my work all by myself now. I always recommend the Vegetable Compound to women, and especially to expectant mothers, as I believe they need help at those times."—Mrs. OLIVER MENARD, 24 Harvey St., Chatham, Ontario.

and blinding storms and lost men going mad with loneliness! . . . Helmi cursed this man, this prospector who had put this wild scheme before her Jack. She wished the lightning had struck him dead. She interrupted Jack's writing. "What is the name of this man you will go with?"

"His name is Keith, Tom Keith. He has his home in Winnipeg, but is seldom there. His wife and family live on the Crescent."

Helmi's eyes blazed with sudden Finnish anger. Keith—a prospector—gold on the Nehanni! Again she could hear Minnie, poor little Minnie, broken and ashamed, telling her pitiful story. "He said he would stake a claim for me if I would never tell."

"He's a devil—he's a devil and a liar!" Helmi screamed. "I know about Mister Tom Keith!" and she poured out curses in Finnish which made Jack shudder, even though he understood not a word.

"Helmi, Helmi! What is wrong? How do you know this man—where could you know him?"

"I knew Minnie," she said, quite off her guard in her excitement, "the poor little girl he fooled. He's a devil, I tell you and you are not to go with him."

"Come here, little wildcat," Jack laughed; "calm down and tell me what you know. Don't scream like that; Mrs. McMann will think I am beating you. I may have to yet—I can see that."

Helmi stood looking at him—she would tell him everything—she must tell him. She had sworn never to tell, but surely when one is married it is different. Jack would keep an oath, too, with her—it would still be kept!

Oh, it would be such a relief to tell her dear Jack! He would be sorry for all she had suffered. Yes, she would tell him everything. Her anger was all gone now, and the happy light had come back to her eyes. It would be so good to tell him.

She came over to him and put her arms around him. "Forgive me, Jack. I am a wild-cat; but it's all for love of you. Have you finished your letter? No! Well, I will wait."

Jack was just writing the address—

Mrs. (Dr.) St. John,
Chestnut Street,
Winnipeg.

"I forgot the number," he said, "but everybody knows the Doctor. Now, come, Helmi, and tell me who Minnie is, and where you met her; in fact I want to know a lot of things."

Helmi stood staring at the name, pale with emotion. She choked back a sob by biting her lip until it bled.

"Oh, there is not much to tell," she said, as carelessly as she could with her heart beating so wildly—"Minnie was a girl who lived in the same house in Winnipeg, and she said this man had said he would do big things for her, and he was just lying. He broke Minnie's heart—he is a bad man, Jack—that is all." She did not look at him when she spoke; she was afraid he would read in her face what she must not tell.

(To Be Continued.)

Miller's Worm Powders not only exterminate intestinal and other worms, but they are a remedy for many other ailments of children. They strengthen the young stomach against biliousness and are tonical in their effects where the child suffers from loss of appetite. In feverish conditions they will be found useful and they will serve to allay pain and griping in the stomach, from which children so often suffer.

Student (to Professor): "What's that you wrote on my paper?"

Professor: "I told you to write more plainly."

Indigestion

What most people call indigestion is usually excess acid in the stomach. The food has soured. The instant remedy is an alkali which neutralizes acids. But don't use crude herbs. Use what your doctor would advise.

The best help is Phillips' Milk of Magnesia. For the 50 years since its invention it has remained standard with physicians. You will find nothing else so quick in its effect, so harmless, so efficient.

One tasteless spoonful in water neutralizes many times its volume in acid. The results are immediate, with no bad after-effects. Once you learn this fact, you will never deal with excess acid in the crude ways. Go learn—now—why this method is supreme.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

RAILWAY EQUIPMENT COSTS MUCH MONEY

One Sleeping Car Is Worth Price Of Five Average City Dwellings

Canada's first railway was sixteen miles long. It was called the Champlain and St. Lawrence Railroad and it ran between Laprairie on the St. Lawrence River and St. Johns on the Richelieu River. It began operation in 1836. The tracks were made of wood and the carriages were pulled by horses. The following year a steam locomotive was built to pull the train and the wooden tracks were covered with an iron surface.

Railroading in Canada has progressed somewhat since then. In 1926 almost thirty-five million passengers were carried by the railways of Canada and it is safe to assume that almost every citizen in the Dominion has been on board, or at least has seen, a modern railroad train.

If, however, the average traveller were asked to hazard a guess as to the cost of building a modern sleeping car, the chances are he would be many thousands of dollars short of the correct figure. There are few who know that one sleeping car is worth almost as much as five average dwellings and that it takes as long to build one as it does to erect a modern six-room house.

Some information on this subject was given by the Hon. C. A. Dunning, Minister of Railways and Canals, when he tabled the equipment order of the Canadian National Railways in the House of Commons during the 1926-27 session. Some of the figures quoted by him at that time are as follows:

A mountain type locomotive, such as is used in passenger service by the Canadian National Railways between Montreal and Chicago, costs \$55,000; a miltado type locomotive used in freight handling on various parts of the system costs \$75,000; a first class coach, \$34,000; a baggage car, \$25,000; a dining car, \$47,500; a compartment-observation car, \$50,000; a sleeping car, \$47,083; an express refrigerator car, \$10,000; an automobile car, \$2,400; a box car, \$2,700; a caboose, \$3,000; a rotary snowplow, \$61,000; and a wing snowplow, \$10,000.

The Irish harp was originally quadrangular instead of triangular, as at present.

One way to prevent seasickness is to remain on shore.

Little Helps For This Week

—Susan Coolidge.

Little self-denials, little honesties, little passing words of sympathy, little nameless acts of kindness, little silent victories over favorite temptations,—these are the silent threads of gold which, when woven together, gleam out so brightly in the pattern of life that God approves.

—Frederic W. Farrar.

Fresh Supplies In Demand.—Wherever Dr. Thomas' Eclectic Oil has been introduced increased supplies have been ordered, showing that wherever it goes this excellent oil impresses its power on the people. No matter in what latitude it may be found its potency is never impaired. It is put up in most portable shape in bottles and can be carried without fear of breakage.

Only Means Of Transportation In The Superior Forest

Canoes afford the only possible means of travel in the Superior Forest—Quetico Park region along the Minnesota-Ontario International boundary, where the Izaak Walton League of America seeks to create an international park.

It is the only large area left in America south of the Hudson's Bay region where all travel is by canoe. The territory consists of pine forests, interspersed by a network of waterways which provide transportation in all directions and to the remote corners.

The Y.W.C.T.U. will meet at
the home of Mrs. J. Reed on Tues-
day, February 7th.

On Tuesday evening, January 24th, Mons Chapter, I.O.D.E.,
was charmingly entertained by
Mrs. Huget. The following officers
were elected for 1928: Mrs. F.
Watt, Regent; Mrs. E. Huget, 1st
Vice; Mrs. C. Sharp, 2nd Vice; Mrs.
I. Studer, Treasurer; Mrs. M.
A. Lowrie, See; Miss Vera Sex-
smith, Educational See; Mrs. C.
Mortimer, "Echo" See; Mrs. E.
Studer, Standard Bearer.

Our Treasurer reported that the
Flag Tea at Mrs. Sharp's home
on January 11th, had been very
successful. A motion was passed
to complete the furnishings of the
nursery at the hospital.

Arrangements for a valentine
dance were completed and it is
hoped this dance which is to be
held in the Didsbury Opera House
on February 14th, will be an out-
standing event. Old-fashioned
dances and novelties will be fea-
tured.

Among those who attended the
U.F.A. Convention held at Cal-
gary, were Dave Irwin and W. J.
Scheidt, delegates of Didsbury;
Enoch Dawson of Burnside, Basie
Atkinson and Hugh Roberts of
Community Hall. Mr. Norman

his mother is now living. We are
sorry to lose Dave.

Mr. Goodland is living in Mrs.
O. T. Johansson's house until
Ben Scott finds a suitable location.

Mr. Neilson has rented the Jen-
nings place. He is a brother of
Peter Neilson on the Cornforth
place.

Mr. Ivor Erickson and W. S.
McCormick were elected on the
Eidsvold school Board. Mr. Ivor
Erickson is chairman of the dis-
trict.

A Literary Club has been organ-
ized at Bergen. Mr. was elected
president and Mr. S. Dougan as
secretary.

We were sorry to learn of the
death of Olaf Arneson, an old settler
of Bergen who homesteaded
here and moved to Rice Lake,
Wisconsin.

Ira Gamble and family have
been contending with tonsilitis
and la grippe. They take turns
in going to bed and doing the nec-
essary work.

Mr. Steven's truck comes to the
Valley for lumber and tries to
make one trip a day, but doesn't
always accomplish it.

A new store is being talked of
for Bergen. A store would help
some if the people had the money
to buy the goods.

Mr. Davies is coming out next
Thursday to talk railroad matter
over with the people.

A brother of Rev. A. Traub is
holding a meeting at the Bergen
schoolhouse next week, beginning
on Sunday evening.

Montana farmers are hauling
grain to stations on the Canadian
Pacific Railway lines just north of
the International boundary line in
South-western Saskatchewan. Some
50,000 bushels are on the move there
on sale to the Wheat Pool. It is
remarkable that the Montana farmers
are paying the duty and receiving
about \$5 per load more than if
delivered to the elevators located
along the Montana route.

"The tourist crop is the next best
crop to that of wheat in the Canadian
West," said C. B. Foster, passenger
traffic manager of the Canadian
Pacific Railway, visiting Winni-
peg recently. "Canadians are now
capitalizing our splendid winters,"
he said. "It used to be our custom
to decry them, but we have since
learned their appeal to the stranger
as well as ourselves and are profit-
ing by it."

Quebec City is preparing for a
record winter sports season, accord-
ing to Jack Strathe, newly ap-
pointed winter sports director at the
Chateau Frontenac. Mr. Strathe
comes to his new field of activity
with a wealth of experience, having
promoted outdoor sports in the Mus-
koka Lakes region and more recently
at the French River Bungalow
Camps of the Canadian Pacific
Railway.

Saskatchewan Heads the provinces
of Canada in growth of revenue
from tourist traffic, according to
the Dominion Bureau of Statistics,
dealing with the calendar year 1926.
The gain over the previous year was
over 100 per cent., while Manitoba
was the only other province with a
revenue increase of more than 25
per cent. The tourist business for
the whole of Canada has risen from
\$83,733,760 in 1920 to \$193,643,450
last year. It is thought to contribute
\$100,000,000 to Canada's favor-
able balance of trade.

Fisher & Edwards will hold a
demonstration on the mechanical
end of tractor operating and assem-
bling, on Wednesday, February 1st,
in the Didsbury Opera House
from 8 a.m. to 6 p.m. Everybody
welcome. High school boys are
especially welcomed.

Editorial

I pity no man because he has
to work. If he is worth his salt, he will
work. I envy the man who has a
work worth doing and who does it
well. There never has been devised

any law that will enable a man to succeed
save by the exercise of those qualities
which have always been the pre-
requisites of success: the qualities of
hard work, of keen intelligence and of
unflinching will.—Theodore Roosevelt

Work is the foundation of all busi-
ness. It is the fount of all prosper-
ity, the parent of genius and the salt
that gives to life its flavor. It has
laid the foundation for every fortune
in the world. Hated by the foolish,

and loved by the wise, it is repres-
ented in every loaf of bread that is
eaten, in every train that rushes
across the continent, in every news-
paper that comes from the press.

It is the mother of all democracy,
the forerunner of all progress. Like
in ever-receding beacon it keeps just
a few steps ahead, constantly beck-
oning on to new fields to conquer,
opening up new vistas of ever-in-
creasing fascination, changing the
whole world, enlivening all mankind
who follow in its footsteps. It is
the greatest leader of any age, holding
greater promises and richer re-
wards than any other can possibly do.

There is no really contented peace,
no really perfect happiness, no true
joy or satisfaction—unless work—and
its creation—have a part in the mak-
ing.

It's You

If you want to live in the kind of a
town, of the kind of a town you
like, You needn't slip all your clothes in a
grip.

And start on a long, long hike.

You'll only find what you left behind,
There's nothing that's really new—
And you'll knock at yourself when
you knock your town;

It isn't your town—it's you!

Real towns are not made by men
who're afraid
Lest somebody else gets ahead.
When everyone works and nobody
shirks,
You can raise up a town from the
dead.

And if while you're making your per-
sonal stake,
Your neighbor can make one, too,
Then your town will be what you
want it to be,
For it isn't your town—it's YOU.

CANADIAN PACIFIC

Winter and Summer The Route to Banff

Covering a wide field of outdoor activities, the February issue of Rod and Gun and Canadian Silver Fox News, just published, is an exceptionally interesting number. Bonnycastle Dale, well known writer for the magazine, this month contributes an unusually interesting story on hunting brant on the Pacific and Atlantic coasts. An enlightening discussion of the Rainy Lake damming proposals is concluded by Arthur Hawkes.

Among other stories and regular departmental features are some splendid hunting and fishing articles as well as informative material on bird life, guns and ammunition, trapping and dogs. Samuel Alexander White's fine series of fiction on the old fur trading days in the North West is concluded with another preface.

Mr. and Mrs. James Burns left last week to make their home for the future with their son, Mr. R. J. Burns, in Calgary.

Mr. and Mrs. E. Brown are occupying the residence of Mr. and Mrs. James Burns, during the latter's absence.

Did You Ever Stop to Think

By EDSON R. WAITE

THAT competition often makes more business;

THAT stores that advertise are extremely competitive;

THAT there is no competition between advertised goods and non-advertised goods, because nobody knows about non-advertised goods and there is no demand for them;

THAT the competition is between different advertised goods because a demand has been created for them;

THAT for business betterment, business concerns should link up their business to good advertising;

THAT there is something particularly pleasing about good advertising;

THAT there is a distinctive character to advertised goods.

Advertising shows that the dealer and manufacturer have faith in their products and stand ready to back up their faith.

Fisher & Edwards will give Demonstration on Feb. 1st.

Striking a new note in the business annals of Didsbury, a local firm will give a display of the tractor they are handling in complete detail. Displaying in turn each separate part of the machine, they will demonstrate the various methods used in assembling, the proper way to drive it under various conditions and at varying speeds, and the most efficient methods used in making repairs. (This latter service will apply to almost any make of machine.)

They will show the tractor handling different kinds of loads and different kinds of work. Not only will the complete tractor be shown but every single moving part in the whole machine will be displayed in plain view to everyone, so that many a tractor owner or prospective owner will carry away a more complete idea of the working of the tractor and the assembling of it than he ever had before and will thus be able to do far more of his own repair work, if he has any, than ever was before possible.

LABORER TO MAGNATE

From a boy laborer in a steel mill to the head of the largest industrial concern in the world is a big jump that James A. Farrell, of the United States Steel Corporation, has made.

When his father was lost at sea with his ship, young Farrell was 15 years old. He had to leave school to earn a living, so his hopes for a college education were shattered. At 16 he began as a laborer in a steel mill in his home city of New Haven, working 12 hours a day as was the rule at that time. But he somehow found opportunities for the study of books as well as to gain a thorough knowledge of his work.

Before he was 21 he was foreman of 300 men in a Pittsburgh wire factory, then in turn became a sales manager and general manager when his company became a part of the United States Steel Corporation.

He was placed in charge of the foreign end of its business until he became president in 1911. His recent advancement to chairman of the board gives him the most important place in an American industry.

Mr. Farrell believes that a young man should begin at the bottom to earn a living, as he did. When his son wanted to enter shipping as a career, Mr. Farrell had him work alongside of longshoremen and stevedores on the docks for a year.

Judging by his own outstanding success, it seems that Mr. Farrell has the correct idea about getting started right.

MOVIE CENSORSHIP

During a recent debate on the question, "Should there be Federal supervision of motion pictures?" the affirmative was upheld by Canon W. S. Chase of Brooklyn, who incidentally indulged in some loose talk on the subject.

He declared among other things that the motion picture is a school of crime, and attributed the kidnapping and killing of Marian Parker by the young fiend, Hickman, to the fact that the murderer was a frequent of the movies.

That such a statement is not only ridiculous but vicious is evident to any sane person. In all cases in which motion pictures deal with crime the criminal is brought to justice before the story ends. We have never seen a picture in which the criminal escaped. Therefore, there is nothing in moving picture plots which might encourage a person to believe that he could commit a crime and get away with it.

Federal censorship and supervision of motion pictures would merely add another lot of officeholders, with authority to harass producers and an already overburdened public. If such a thing were possible, any censorship which might be invoked had better be applied to such idle talk as Rev. Chase indulged in concerning the cause of crime.

A real Old Time Dance is being held in the Opera House, Didsbury, on Friday, January 27th. The Clemens-Bellamy will be in attendance and will thus insure good music. Herr Burchmann of Berlin was recently given a three-year sentence for robbery and laughed heartily, thinking it a good joke. Government vs. Private Ownership

It does not call for the vision of a seer, or the wisdom of a seventh son of a seventh son, to realize that a battle royal is looming up on the horizon of Canada's national life involving acceptance of one or the other of the two policies noted in the heading of this article. It will be a battle of giants, with not merely millions or tens of millions, but hundreds of millions of dollars at stake.

The initial stages of this gigantic financial battle are now being waged over the subject of control and development of vast water-powers in various parts of the Dominion. In more than one instance these are linked up with schemes of canalization, as, for example, the Great Lakes-St. Lawrence waterways scheme, and the long discussed Georgian Bay Canal project. Although both of these undertakings must be carried out in the East, they are matters of vital interest to Western Canada.

Financial, commercial and industrial interests in Montreal and Toronto may be interested, and more or less directly affected by the deepening of the canals of navigation between the present head of ocean navigation at Montreal, and the head of the Lakes ports of Port Arthur and Fort William, but the more vital concern of these financial magnates is centered in and upon the development of the huge water-powers which will be made available as part of this canal construction.

The West, on the other hand, is more concerned about the greater waterways feature and the effect which the deepening of the water channels between the head of the Great Lakes and the Atlantic seaboard will have on freight rates, both by water and rail, on the huge exportable surplus of Western products.

So far as the Great Lakes-St. Lawrence project is concerned, it is not wholly a domestic matter for Canada. It is an international matter, inasmuch as a portion of the St. Lawrence belongs jointly to Canada and the United States, and the construction of the proposed deep canal system will affect approximately forty million of the people of the neighboring republic.

Eastern financial interests, whose real concern is to secure private control of the vast water-powers to be developed, are busy raising the bugaboo of United States interference in Canadian affairs, United States control or Canadian resources, and are urging all the possible dangers of entangling alliances. The old, worn-out stock arguments used at the time of the Reciprocity campaign are beginning to be trotted out once more, the Old Flag is to be waved, and all and sundry who do not see eye to eye with the financial magnates looking with a covetous eye of this wealth of water-powers are to be classified as traitors to the Dominion.

There is some evidence, too, that, as on former occasions when questions of great national moment were up for discussion and decision, attempts will be made to cloud the real issue by again raising despicable cries of race and creed, and seeking to set one section of the Dominion against another.

Too frequently in the past, with great national policies at stake, the people of Canada have allowed themselves to be swayed by these cries and have been made the victims of their own shortsightedness and foolishness in giving heed to such unworthy appeals. Now that Canada has largely put these things into the background and is moving forward to a development and prosperity unsurpassed in its past history, it is to be sincerely hoped that any and all such ignoble attempts will receive no quarter from the overwhelming mass of the Canadian people; that, as a people, they will put their foot down, and put it down hard, upon any such campaign, the originators of which are the real enemies of and traitors to Canada.

We are not proposing to discuss the respective merits of public and private ownership. But we would most earnestly ask the people of Western Canada to be on their guard, and in the discussions which are bound to take place within the next few years, to keep their minds persistently on the facts of the case, and not be influenced one way or the other by catch cries, sectional, sectarian, or partisan appeals. It is the national good of all Canada, present and future, that is at stake.

Another Victory For Science

Danger Of Collapse After Pneumonia Crisis May Soon Be Overcome

Forecast of an imminent announcement that medical science had achieved another great victory was made before the Canadian Club at Toronto, by Prof. J. C. McLennan, of Toronto University.

Danger of collapse following a pneumonia crisis, caused by inability of the body to attain requisite temperature, may be overcome as a result.

The Experience of Mrs. Roy Brown is Well Worth Reading

Peterboro, Ont.—"I was in a miserable state of health, my nerves gave way completely. I could not sleep, had backaches and was completely exhausted—so weak and sleepy and tired that I was compelled to give up and take to my bed. I was advised to try Dr. Pierce's Favorite Prescription, and nothing I had used helped me. By the time I had taken one bottle I was able to be up and around. I kept on taking it and was completely restored to health. I cannot say enough in praise of the 'Favorite Prescription' for the wonderful help it gave me."—Mrs. Roy Brown, 222 King St.

result of recent observations in the General Electric laboratory in Schenectady, N.Y.

It was recently observed that operators experimenting with a long metronome apparatus built for radio suddenly had a tremendous rise in temperature. It soon became apparent that if these waves could be controlled and applied to sodium chloride in the blood there was a marked absorption and the temperature was increased to a given point. It is now believed by application of these waves any known temperature required to destroy different disease-forming organisms can be produced without danger to the patient.

Millions Spent On Roads

Canada Has Built 7,436 Miles In Last Few Years

Out of a total of 8,415 miles of road provided for under agreement authorized by the Canada Highways Act of 1919, 7,436 miles has been completed at the end of the fiscal year ending March 31, 1927. This is shown in the annual report of the Commissioner of Highways.

This mileage was constructed under the provisions governing the Federal subsidy whereby the Dominion Government undertook to furnish 40 per cent. of the cost, the province taking care of the remainder.

The estimated subsidizable cost of the highways was \$49,000,972.

Manitoba Agricultural College Re-Union

400 Ex-Students To Celebrate the Coming Of Age Of the Institution

Friends and ex-students of the Manitoba Agricultural College are preparing to celebrate the coming of age of that institution at a re-union to be held February 16 and 17, for it is twenty-one years ago since the charter class foregathered.

Re-unions come with unfailing regularity in M.A.C. circles, but this one, on account of its historic significance, is to be the daddy of them all. A big committee under the energetic leadership of J. H. Evans, deputy minister of agriculture, is making a special drive to get in all ex-students, particularly those who went through the mill on the old site at Tuxedo, now the military barracks. The first evening of the re-union will be given over to a banquet. Efforts are being made to secure the attendance of Dr. W. J. Black, Montreal, President Reynolds, of O.A.C., and Hon. John Bracken, the three ex-presidents of the college. Mr. Evans estimates that at least 400 ex-Aggies and Household Science graduates will be on hand, every one of them cautioned to leave seriousness at the door.

The afternoon of the second day will be spent in visiting the classrooms and laboratories at St. Vital. Students now in attendance at the college stand prepared to take the concert out of graduate athletes who may be harboring any notion that they can still curl or play basketball. A dance at the college will wind up proceedings.

NO BETTER MEDICINE FOR LITTLE ONES

Is What Thousands Of Mothers Say Of Baby's Own Tablets

A medicine for the baby or growing child—one that the mother can feel assured is absolutely safe as well as efficient—is found in Baby's Own Tablets. The Tablets are praised by thousands of mothers throughout the country. These mothers have found by actual experience that there is no other medicine for little ones to equal them. Once a mother has used them for her children she will use nothing else. Concerning them Mrs. Charles Hutt, Tancook Island, N.S., writes: "I have ten children, the baby being just six months old. I have used Baby's Own Tablets for them for the past 20 years and can truthfully say that I know of no better medicine for little ones. I always keep a box of the Tablets in the house and would advise all other mothers to do so."

Baby's Own Tablets are sold by all medicine dealers or will be mailed upon receipt of price, 25 cents per box, by The Dr. Williams' Medicine Co., Brockville, Ont.

Recipes For This Week

(By Betty Barclay)

Cardinal Gelatin Salad

1 package lemon-flavored gelatin.
1 1/2 cups boiling water.
1/2 cup canned beet juice.
1 cup celery, shredded.
1 cup beets, diced.
1/2 cup Spanish onions, cut fine.
1 green pepper, shredded.
1/4 teaspoon salt.

Dissolve gelatin in boiling water. Add beet juice. When cold, add celery, beets, onions, green pepper and salt. Pour into individual molds. Turn out on lettuce, serve with Mayonnaise dressing. Serves eight.

Fifteen-Dollar Pie

1/2 cup sugar.
2 tablespoons flour.
1 1/2 tablespoons melted butter.
Juice 1 lemon.
1 egg yolk.
1/2 cup milk.
1 egg white.
Few grains salt.

Mix sugar and flour, add melted butter, lemon juice, egg yolk slightly beaten, milk, egg white stiffly beaten, and salt. Bake in one crust, and cover with meringue or not, as desired.

A pleasant medicine for children is Mother Graves' Worm Exterminator, and it is excellent for driving worms from the system.

Edinburgh is to be commended on its decision to sell its relics of the Great War, and give the money to charity. Better that children should have food and clothing than have machine guns to play with.

For frostbite use Minard's Liniment.

ASPIRIN

Headaches may be swiftly and safely relieved by an Aspirin tablet. A most efficient remedy, and there's no after effect; its use avoids much needless suffering. Try it next time; see how soon its soothing influence is felt. Just as helpful when you have a cold; neuralgia, neuritis, rheumatism, lumbago. Just be certain you get real Aspirin—the genuine has Bayer on the box, and on every tablet. All druggists, with proven directions.

Physicians prescribe Aspirin; it does NOT affect the heart

Aspirin is the trade mark (registered in Canada) indicating Bayer manufacture. While it is well known that Aspirin means Bayer manufacture, to assure the public against imitation, the Tablets will be stamped with their "Bayer Cross" trademark.

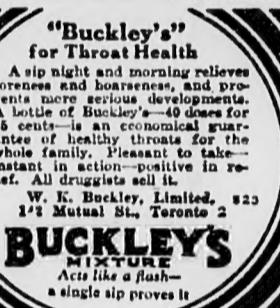

Experimental Farm For North

Establishment In Meadow Lake District Has Been Approved

Of interest to the settlers in the far north of the North Battleford federal constituency is the news that the federal department of agriculture has sanctioned the establishment of an experimental station at Meadow Lake. The farm will be selected, and will be put in operation during the coming summer. The telegraph line built this year, linking up the 55 mile stretch between Meadow Lake and Loon Lake is now in operation, and is already proving a boon to the people in this remote part of the province. With better farming facilities and improved conditions for the settler, a development of the agricultural possibilities is expected, resulting ultimately in improved railway and highway service.

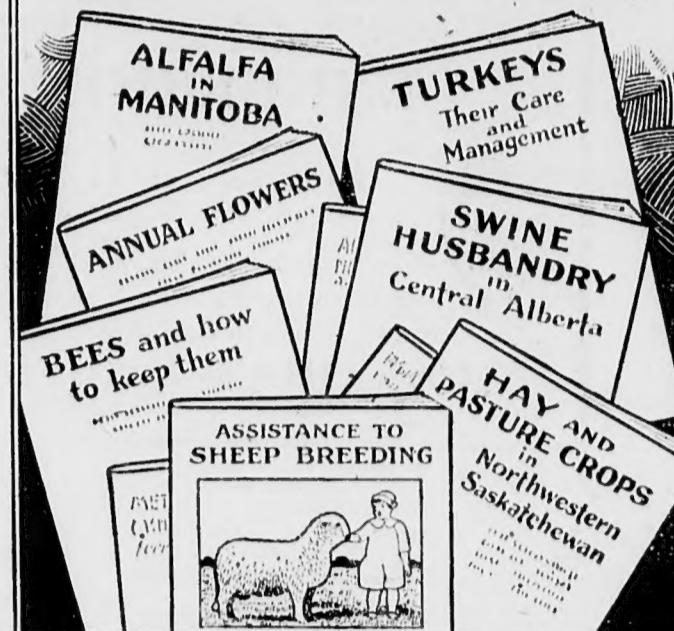

Fur Farming In Alberta

The growing importance of the fur farming industry in Alberta is indicated by the importation recently of a shipment of 27 pairs of silver foxes from ranches in the Maritime Provinces. These animals, valued at \$25,000, were consigned to the National Silver Fox Club at Morinville, a newly organized firm which plans to engage in fox breeding on a large scale.

Carols were first sung in the thirteenth century.

GRADING SYSTEM FOR WHEAT IS UNDER REVIEW

Calgary.—Following a debate during which every phase of the question of grain grading was explored, the United Farmers of Alberta, in convention here, by an overwhelming vote declared their opposition to the introduction of measures which might result in the lowering of the standard of Canadian wheat on the markets of the world.

Two resolutions were presented on grain grading. One advocated a division of grades to provide for increased moisture content, "tough A" testing from 14.4 to 15.5, and "tough B" from 15.5 to 17 per cent. It was suggested the spread in price be proportional. The other resolution asking the convention to petition the Government to empower the Canadian Board of Grain Commissioners to allow a certain amount of damaged grain to go into contract grades two and three Northern. Both resolutions were rejected.

Before consideration of these recommendations, the systems of grain inspection and grading now in vogue in Canada were explained in exhaustive detail by J. D. Fraser, chief of the western grain inspection division, and James Robinson, member of the Board of Grain Commissioners.

For nearly three hours the two officials were bombarded with questions from the floor of the convention. They were requested to show how grain standards were set, why grain from the same field produced wheat of varying grades, the benefits of drying, results of re-inspections, the effect of mixing on the reputation of the Canadian product, and answer a barrage of queries bearing upon the movement of wheat from the time it is shipped to the country elevator until it reaches the export market.

Claims were made that the important task of inspecting the wheat of the country was being placed in the hands of incompetent men who often proved to be "poor guessers." To overcome this objection it was urged inspectors be drawn exclusively from the agricultural population and not from the civil service.

Replies, Mr. Fraser declared all inspectors were required to pass a rigid examination before appointment. Illustrating the difficulty in obtaining suitable men, he pointed out that from a recent list of 56 applicants only 12 had survived the test.

"Trading," Mr. Fraser added, "is primarily a matter of judgment. Naturally every man's judgment is not the same and wherever the human element enters, there is always the possibility of mistakes. In reaching classification of grain inspected, we are solely guided by the terms of the Canada Grain Act and our efforts at all times have been to reach some basis of uniformity."

Mr. Fraser deplored the increasing number of varieties of wheat being produced in the country. Fifteen years ago, he said, when the varieties were fewer, the grade of wheat had been considerably higher than at present. He expressed the opinion that half a dozen varieties would be quite sufficient.

Television Established

London.—Television already has been successfully established between London and New York, according to L. G. Hutchinson, director of the Baird Television Company. Prior to sailing to his Adelauta for New York, Mr. Hutchinson announced secret experiments had been in progress for six weeks and that recently "contact" with New York was made on several occasions, it being possible to see the faces and hands of individuals, although the features were indistinct.

Spies Are Convicted

Two Men Are Sentenced In Britain For Espionage

London.—An Old Bailey jury convicted two men of trafficking in British official military secrets in the interests of Soviet Russia and dealt a heavy blow to what the prosecution termed a "dangerous spy organization operating against the safety of Great Britain."

Wilfrid Thomas McCartney, variously described as an Englishman and as an Irish-American, and George Hanson, a youthful German, were sentenced to ten years' penal servitude each on their conviction.

McCartney was accused of being the chief spy and Hanson his aide, in obtaining and communicating information useful to opponents of Great Britain in warfare. While admitting that not all those engaged in the espionage organization had been trapped, Attorney-General Hogg declared the activities of the arrested men had been halted before material damage could be done the country.

Summing up, the Lord Chief Justice said the accused had been convicted of "terrible offences" and denounced them for trafficking in official secrets for gain, uninspired by any thought of serving their own countries.

Asks For Wider Powers

Regulations Governing Soldier Cases Not Flexible Enough

Toronto.—As a result of the report of Col. A. T. Hunter, on his recent investigation into the Department of Soldiers' Civil Re-establishment here and in Hamilton, London, Ottawa, and Montreal, the minister, Hon. Dr. J. H. King, will ask Parliament to grant him wider powers in dealing with the cases of the veterans, said the Globe recently.

At the present time, it is said, the regulations are not flexible enough, so that in certain exceptional cases hardship is undergone by veterans.

Would Be a City

Regina.—Formal petition for the incorporation of the town of Yorkton as a city—the eighth in Saskatchewan—has been received by Hon. S. J. Latta, minister of municipal affairs. The petition was signed by Mayor A. C. Stewart and Town Clerk F. J. Pilkington, and accompanied by the usual fee of \$250. The application will receive the consideration of the Lieutenant-Governor-in-Council.

Resignation Expected

Toronto.—The Evening Telegram says the resignation of Hon. Forbes Godfrey, Ontario Minister of Health, from the cabinet is expected shortly owing to ill health.

Liverpool Greets Canadian Farmers

Miss Cora Hind Replied To Address For Visitors

Liverpool.—The touring Canadian farmers spent 48 hours visiting Liverpool, Birkenhead and other points on the Mersey River, and their visit created considerable interest here.

One Liverpool paper says of them: "They are dressed like Englishmen in their Sabbath best, except for a few who give distinction to the party by wearing fur coats."

The farmers were welcomed on the corn exchange by President Harker, who assured them that Canada's wheat graded as reliably as a bank note.

Miss Cora E. Hind, Winnipeg, replied for the visitors in an address that was replete with information about the Dominion's resources, advantages and progress.

The visitors were received at the city hall by the Lord Mayor, Miss Margaret Beavans. Short speeches were made by many of the leaders in Liverpool's great commodity handling business. Conferences were held in the fruit and general produce exchanges.

The party visited the Liverpool Cathedral, of which, after 39 years building, only a part has been completed and the complete construction of which may occupy a century.

Want More Prize Money

Would Have Exhibition Boards Boost Prizes For Shorthorns

Regina.—Calling upon the Saskatoon and Regina exhibition boards to increase the prize money for the Shorthorn classes at the two summer fairs, delegates to the annual meeting of the Sask. Shorthorn Club here expressed appreciation at what had been done for them in the past. It is with the desire to encourage the small breeder to show at these summer fairs, that the breeders will be asked to increase the money prizes for Shorthorns bred and owned within the province.

Jorn Brandt, Edenwold, was re-elected as president, with Mr. A. G. Hopkins, Surbiton, as vice-president, and Chas. Harton, Belle Plaine, as secretary.

Reports from the secretary and president indicated that the club is increasing in numbers, and that there is a greater interest in the breed being developed in the province.

No annual sale will be held this coming fall, as it has been found that weather conditions prevent a large number of breeders attending.

Millions For Manitoba

Winnipeg.—More than \$120,000,000 came to the province of Manitoba from the field crops for the fiscal year ending April 30, 1927, according to the annual report of the department of agriculture placed before the legislature by Hon. A. Prefontaine, Minister of Agriculture.

Manitoba Will Adopt Immigration Scheme

Bringing Boys From England For Placement On Farms

Winnipeg.—The British boy immigration scheme has been adopted by the Manitoba provincial government and about 50 lads will be brought here this year for placement on farms in the province, Hon. A. Prefontaine, Minister of Immigration, has announced.

Temporarily, the boys will be placed at Manitoba Agricultural College where they will receive training to accustom them to farm work.

New Ruling At Ottawa

Fee Of \$25.00 Now Charged All Parliamentary Agents

Ottawa.—Before a parliamentary agent can appear before the House of Commons to promote or oppose any private bill or petition, he must pay a fee of \$25 and secure the express sanction of the Speaker of the House.

This is contained in a new ruling. Now there are nearly 30 such measures on record and proponents and antagonists alike, aside from members of the House, will have to conform.

MANY WESTERN MATTERS ARE TO BE DEALT WITH

Ottawa.—Western matters will have considerable prominence in the legislation of the forthcoming session of parliament. There will be a large additional vote for the Hudson's Bay Railway and if the anticipated agreement is reached regarding the policing of Saskatchewan, legislation may be required, although it may be effected by order-in-council. In any event, the subject will be before the House.

Alberta and British Columbia also figure in the sessional program and in legislation defining the boundaries of national parks in Alberta. An agreement on long standing points of dispute will be sought.

The re-survey of boundaries made in the last few months paves the way. The fundamental interest in the parks which the Dominion proposes to retain will be the scenic beauty, leaving to the province the water powers and minerals to a large degree. The Dominion Government is willing to exclude Spray Lakes and other powers from the parks, along with the principal coal fields, providing it is guaranteed against future claims by the province respecting any mineral deposits which may be incidental to the essentially scenic portions of the domain. In other words, it is proposed to establish a new boundary and exclude the villages, water powers and the known mineral deposits, providing the title to the remainder is left inviolate in the Dominion. An agreement along these lines is probable. The resources to be excluded would be held by the Government until such time as the resources generally are returned.

Meanwhile, in regard to the latter question, there are no new developments. Conferences on the subject last week between Premiers King and brownlee are expected to result in a pronouncement one way or the other, when the latter has consulted his colleagues. The Dominion Government is desirous of having the constitutional issue finally determined, after which it is prepared to return the resources, but difficulty has been encountered in getting the case before the Privy Council without some new intervenant. The obstacle arises from the unusual procedure of the federal government appealing a judgment in its own favor.

In regard to British Columbia's case for better terms, a report from Mr. Justice Martin is awaited. The hearing has made it pretty clear that if the lands sought are returned it will not be in recognition of a legal claim, but as a matter of equity.

Duke Of Richmond Dies At Home In England

London.—Charles Henry Gordon-Lennox, Duke of Richmond and Gordon, and aide-de-camp to King George, died at his home, Codwood House, Chichester, after a brief illness. He was 82 years old.

The Duke of Richmond and Gordon served as aide-de-camp to Queen Victoria, King Edward and King George. He was a former member of parliament and was a colonel in the Sussex regiment. He was Lord Lieutenant of Elgin and Banff, and had been Chancellor of Aberdeen University since 1917.

He served in the South African War and was mentioned in despatches.

Re-Elected To Presidency

Calgary.—Unanimous demonstration of loyalty was accorded Henry Wise Wood in his re-election to the presidency of the United Farmers of Alberta for the third convention here. The candidature of the veteran leader was not opposed. Similarly the United Farmer Women of Alberta expressed their confidence in Mrs. R. B. Gunn, who despite protestations, was persuaded to accept the presidency of the U.F.W.A. for another year.

Beer By The Glass

Toronto.—The Ontario Legislature will open in three weeks, and, according to The Toronto Star, it is possible the question of sale of beer by the glass may be a live issue at the session.

STUDYING MARKETS IN EUROPE

Farmers and others interested in agriculture in all parts of Canada are members of the Canadian National Railways Farmers' Marketing tour of Europe which is being spread over January and part of February. Church Announcements

Didsbury is to be favored, Friday, February 3rd, by a visit from Dr. Dobson of Vancouver. Dr. Dobson is the United Church's specialist on Social Service and his theme on this occasion is scientific temperance. A special request was put in for this visit and all interested are asked to keep this date. There will be no financial appeal.

The Mennonite Church has been secured for the occasion. The hour is 8 p.m. It is a united meeting in the interests of temperance.

Evangelical Notes

The League of Christian Endeavour will have charge of the evening service next Sunday. Several topics in vital themes will be dealt with by the young people. The Sunday School orchestra will assist with the musical side of the evening's program. A good attendance is expected.

A week from Sunday is the date for the beginning of a two weeks' series of special meetings. Rev. W. W. Krueger, P. E., will be the speaker for the present quadrennium. "Evangelism" is one denominational motto by order of the Board of Bishops and we solicit the prayerful co-operation of every member of the local church in this behalf.

Knox & Westcott

Communion will be observed at Knox Didsbury, on Sunday, January 29th, one at Westcott on February 5th.

For a short time it will be necessary to have services on alternate Sundays. No services will be held this Sunday.

One Pine Hall, Sunday school at 2 p.m.; Church at 3 p.m.

Knox and Westcott are planning to observe the annual meeting on Monday, February 6th. A supper will be served at Didsbury at 6:30 p.m., and will be followed by a short business meeting as social.

Lutheran Church

January 29th.

St. Paul's, Westcott at 10:30 a.m. in German. Subject: "Our Duty to our Children."

The dates announced for the India lecture have not definitely been set for February 26th and 30th. On the former, Sunday next, two lectures will be given at the Baptist Church in Didsbury, 2:30 and 8 p.m. in German and English at Westcott. At all gatherings an offering will be taken to carry expenses. Miss A. Rehwinkel, who will give the lecture, is herself an active worker on the India Mission field, and according to a recent letter, handles her subject marvelously well.

WORSE THAN WAR

Whatever else may happen during 1928, it is a practical certainty that more than 25,000 Americans will be killed in traffic accidents, and another 50,000 injured.

It is strange that the awful death toll of automobiles does not serve as a warning to automobile drivers and pedestrians alike, but it appears that it does not. While a slight lessening of the accident rate in proportion to the number of cars in use has been noted, the total number of casualties has steadily increased.

Many persons who worry over serious or minor dangers of other sorts will take chances on the highways which are bound to sooner or later end in disaster.

As recent statistics show, three times as many casualties result from automobile accidents in a single year as were suffered by United States forces during the entire World War. The war cost more lives, but the automobile is responsible for more injured.

HOCKEY NOTES

On Monday night the team from Innisfail came down to battle with the home crowd, but their batter was out of order or something, for they didn't seem to connect just right, somehow at all.

Charlie Cook, as per usual, gave his regular spirited support, while Evans did nearly as well. But to our mind, the outstanding player on the ice was none other than our new cage-keeper, Elmer Marks, who stepped into the breach time and time again to resist the onslaughts of the Northmen. Clint Reiber and Cecil Studer, together with Jack McCloy again proved to be unwelcome to the striking forwards on the other side, with Clint and Jack making periodic trips down the ice and ripping their way down in great style, although they were never fortunate enough to register. Lloyd Liesemer played a tricky game, and hammered the net time after time, but with small success.

Mrs. Charles Hartley holds the most responsible financial position attained by an English woman, being a director of the Belgravia Trust Company of London.
